JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Thursday - 1 June 1961

25X1   1.   [ ] Talked further with George
Schwarzwalder in the Bureau of the Budget on the proposed bill
for a U. S. Disarmament Agency, going over some of the details
I had mentioned earlier. A letter giving the Agency position was
dispatched later in the day.

25X1   2.   [ ] Advised Jim Hyde in the Bureau
of the Budget that I had talked with Mike Feldman in the White House
on an Agency position, specifically, and an Administration position,
generally, on S. J. Res. 77, to establish a Joint Committee on
Intelligence. Feldman's view was that this should be discussed jointly
with him and with McGeorge Bundy. In view of Bundy's absence from
the country, Feldman suggested we hold this until Bundy's return.
Further advised Hyde that I have mentioned this to the Senate Foreign
Relations Committee staff people and there is no pressure on this.
I will contact Hyde further.

25X1   3.   [ ] Representative James E. Van Zandt
telephoned and requested we send him a set of application forms so
that he could forward them to a constituent. Personnel is taking
care of today.

25X1   4.   [ ] Mr. Hessell Yntema [ ] 25X1
telephoned inquiring our views on the proposed zoning on the Revercomb
Farm site for a high rise apartment indigenous to the Agency building.
After checking with Colonel White, I gave him our general view that
we hoped the rural nature of the area would be maintained but cautioned
him that we could not take a stand on any specific propositions. Mr.
Yntema was glad to learn of our general views and indicated the
McLean Citizens Association is going into the matter with a view of
protesting the rezoning. Yntema indicated he might wish to contact
us further.
